The PFEIFFER Message
To All Flower Lovers

"Pfeiffer quality" has gained a national reputation that is second to none. Orders from flower fanciers have been more plentiful this past season than ever before, due to their success with Pfeiffer propagated bulbs and roots.

Enlarged growing operations have made it possible for us to lower prices on many varieties that have been classed as rare and carrying ratings among the highest set by flower authorities.

Only by concentrating all of our growing facilities and our years of experience in the propagation and development of such varieties, can we offer such rare bargains.

Volume production has brought finer quality at lower prices. Every bulb and root sold by Pfeiffer is grown in the large Pfeiffer Nursery here at Winona.

Pfeiffer quality is further assured by the fact that roots and bulbs are shipped right after being dug. They are fresh, full of life and in the best condition for replanting in your own grounds.

Experience has shown us how to speed up production and conserve on growing and handling expenses. Then we sell direct to you. All of these obvious economies are passed on to flower lovers in lower prices, better bargains and extra quality.

We are interested in your success both because a satisfied customer returns for more bulbs and roots, and also our pride in the quality of Pfeiffer stock.

The location of the nursery at Winona is especially favorable, as the soil of the upper Mississippi River Valley is such a combination of soils that flowers grown here do well in practically all loam soils. They grow exceptionally fast and are unusually hardy since Winters here are severe and the growing season short. These conditions are some of the reasons why flower lovers in every part of the country have enjoyed so much success with flowers grown by Pfeiffer of Winona.

This year selections and quality are finer than ever before. It is an opportunity to obtain rare quality and varieties at unusually low prices.

We have only a limited supply of some varieties. They will be snapped up quickly due to the low prices so that we urge you to send your order early. We are also able to give a little better service on orders received now.

and More Flowers

The Pfeiffer Hobby

We have told our customers that, "when finer Peonies, Iris and other Perennials are developed, you can be sure they will be perfected by Pfeiffer." This isn't bragging, but a simple statement of fact. We mean every word of it.

For over twenty-five years we have been doing this—giving all of our time to developing Peonies of greater size and depth of color, perfecting Iris of richer beauty, and growing more delightful Gladiolus, supplying the world's most critical customers with Tulips, Phlox and other Perennials.

This nursery, with its acres upon acres of beautiful flowers stretching away in orderly rows to the distant hills, so admired by everyone driving by, had its beginning in a backyard garden. Growing more beautiful flowers was my hobby years before the production of these finer perennials became a business. It was simply the demand of other flower lovers for bulbs and roots of the finer varieties developed, that started the Pfeiffer Nursery.

During our busy days here, when we are working from dawn to dark, looking after our customers, writing letters, doing the thousand and one things that are to be done in the big nursery, I sometimes become physically exhausted, mentally tired—to overcome it I knock off for a brief hour and wander among the flowers, which not only renewes me physically and mentally, but impresses upon my mind That Nature is Indeed Grand.

I love flowers. Mrs. Pfeiffer, my son and his wife, even their children, have learned to appreciate the message contained in flowers, the solace, the tranquility of mind that comes to all true flower lovers from close association with flowers.

It is our opinion that the growing of perennials is the most healthful and interesting hobby any man or woman can enjoy. We know of bankers who watch the clock for the time when they can leave the office, to tend their beds of Peonies and Iris.

The head of a large mill plays "hookey" from business, to work with his flowers. Another business man has made his hobby pay him thousands of dollars every year. A prominent society woman can often be found on her knees among her Gladioli, Peonies and Iris. These folks are not wasting time, but storing up health and energy for their activities in the business and social worlds. And everywhere you will find flower lovers like these speaking of Pfeiffer as the most reliable source for choice bulbs and roots.

The reason for this widespread reputation of Pfeiffer quality is that we are specialists in the propagation of Peonies, Iris, Phlox and Gladioli. By concentrating on the growing of these flowers many new varieties have been developed and the quality of old varieties improved in size of bloom, hardiness and depth of colors.

Your dictionary defines specialist as one who devotes himself to one branch of science, art, etc. Doctors become specialists to develop greater skill and knowledge. In Peonies, Iris and other Perennials, as in medicine, people have found it pays to depend upon the specialist.

Whether you grow flowers as a hobby, for profit or to improve and beautify your home grounds, you will find Pfeiffer Peonies, Iris, Phlox, Gladioli, etc., are easiest to grow and the most remarkable in blooms because given our entire time and years of experience in their development.

THE PFEIFFER NURSERY, Winona, Minn.
There Are No Substitutes for Perennials in the Landscape

There is nothing that adds so much beauty and value to the landscape at such small cost as Peonies, Iris, Phlox, Gladiolus and similar perennials.

Perennials fill a definite place in every well planned landscape and their absence is felt so much that the most expert landscape gardeners consider them indispensable.

It is gratifying indeed to see the growing favor accorded these perennials by the leading landscape gardeners in every section of the country. No longer are perennials confined to a small plot, garden or bed in the rear. The beauty of their blooms, their rich green foliage and hardiness recommend them for cover planting in front of shrubbery as well as for borders along walks and drives.

Because of their quick growth, perennials are in favor for foundation plantings around new homes. They provide delightful green foliage and fresh blooms to break the ground line and make the home more attractive the first few years while shrubs are getting a start. Later they can be moved in front of the shrubbery or to other places in the landscape where they continue to give character and charm to the grounds.

Another place where these perennials are almost indispensable is on the small city lot. Here shrubs are too large for mass effects but Peonies, Phlox, Iris and Gladiolus can be planted in clumps or borders to meet every requirement of landscaping.

One reason for the favor with which perennials are regarded by landscapers is that the entire season can be covered with blooms. There are no shrubs that give such gorgeous blooms or take such interesting forms. On large places these aristocratic perennials are allotted a garden of their own where they are raised for their flowers alone.

Where these perennials are given the front place in the landscape plan, care should be taken that they have exceptional quality and that the color of their blooms will give character to the planting. You will find a wide selection on the following pages and all of Pfeiffer quality.

Buy Direct from Responsible Grower

This is the advice of best flower lovers, experts, judges and others who know from experience that only by dealing direct with the grower who has a reputation for quality can you be sure of fresh, high rated roots and bulbs. Because we are growers there are no extra profiles in Pfeiffer prices, no salesmen’s salaries or expenses, no commissions, no mark up on handling cost. There is no old stock on hands. There is no need of misrepresenting for we have no stock that is “carried over” as dealers and others who buy bulbs at wholesale have to offer. When we give a bulb its rating we have seen it grow, know its color, vigor and value. Such ratings mean something.

Fresh, correctly rated, properly grown bulbs and roots assure your success which means blooms the first year, larger flowers and deeper colors. Thousands of flower lovers send direct to Pfeiffer every year for their favorites and new varieties of Peonies, Iris, Gladiolus, etc., because they know they will get the best at lowest Direct-from-Nursery-to-You Prices.

The PFEIFFER METHOD OF PACKING

Every bulb and root is packed to assure their arrival in the best condition. Very fine planer shavings are used for Gladioli while the same material or moss is needed for Peonies. The best grade of moss is used for all other bulbs. The packing is made wet or dry, depending upon what the variety of bulbs demand. This great care in packing assures satisfaction and is given the same attention no matter how small your order.

Greater Value and Lower Prices

Old customers know that regardless of the price, you receive the highest quality it is possible to produce when you order from Pfeiffer. The low prices and bargain collections offered are made possible by direct selling from our own nursery. We grow, dig, pack and guarantee every Peony, Gladiolus, Iris, or other perennial sold.

We have built our reputation on quality. If you want something extra in quality, which means strength and vigor, as well as luxurious, perfect blooms, then you will come to Pfeiffer of Winona. Prices are made especially low this year so that everyone can afford more and higher quality of flowers.

Old customers of Pfeiffer’s need no references or other proof of our responsibility. To new friends and customers the letter from the First National Bank of Winona, Minnesota, is reproduced in order that you may have this additional assurance of service and integrity. We are rated in both Dun’s and Bradstreet’s, if anyone wants these additional references.

How and When to Order

Order your perennials now for Fall planting. It will pay you to make up your entire order at one time because we allow LIBERAL DISCOUNTS ON QUANTITY ORDERS: On a $5.00 order, select $5.75 worth of stock; on a $10.00 order, select $12.00 worth of stock; on a $25.00 order, select $29.00 worth of stock; on a $50.00 order, select $60.00 worth of stock; and on a $100.00 order, select $125.00 worth of stock. These SPECIAL DISCOUNTS DO NOT APPLY on special collection offers or Tulip orders.

Postage or express charges on orders for $1.00 or more are prepaid to any point in the United States when cash in full is sent with your order. Please send remittances payable to THE PFEIFFER NURSERY, by check, draft, postal or express money order, as currency may become lost in the mails.

The Aristocrats of the Flower Kingdom for Beauty and Fragrance

What we do want you to realize is that Peonies have personalities that are as different as character in people. All Peonies are not alike any more than all members of the “white race” are the same. It is this personality or individuality in the landscape that first appealed to C. A. Pfeiffer as a home gardener and it is what we have devoted a great deal of time to developing in our Peonies grown here at Winona. In the varieties offered on the following pages you will find the Peonies that appeal to you most, the ones you will want to raise and be proud to show to friends.

A Peony Garden with a Wealth of Bloom

For those of you who love flowers but have never yet grown Peonies, there is a world of pleasure awaiting you. If you do not now have a flower garden, but aspire to have one some day, a few Peonies planted this Fall will make a splendid beginning, and will each year give you ever-increasing pleasure and enjoyment. Not until you grow these gorgeous flowers yourself can you know of the keen delight of watching the development of the seemingly insignificant bud into a marvelously beautiful bloom, and of the enjoyable sensation and thrill of cutting these exquisite flowers for the house or for your friends.

Peony Ratings

The figures at the left in the Peony descriptions are the official ratings given by the American Peony Society; 10 points being perfect. Any Peony rating 7.0 is good, over 8.0 very good, and over 9.0 exceptionally good.

Hardy and Long Lived

Peonies are easy to grow, perfectly hardy and when established in the garden, become a permanent fixture in the landscape. They bear large and showy flowers of a great range of colors. Some are delicately scented, proving themselves to be ideal for cut flowers.

Variety of Uses

The Peony is fine as a specimen plant, for massing, for borders, for cover in front of shrubbery, and is one of the very best low hedging plants. It gives color and variety to every form of landscape decoration. It is hardy in almost any climate and any soil, is easily established and requires a minimum of care, is almost, but not quite, immune from plant diseases and insect pests.

Planting and Cultivating Peonies

Peonies require a reasonably fertile, well drained soil and should have full sun at least part of the day. If planted in a shady place, plants are apt to be spindly, and will not produce typical bloom. If possible, plant them in an open space away from trees and shrubbery, in the open sunlight. Plant so that the buds or eyes are about two inches below the surface of the ground. Deep planting is detrimental to their blooming habit, and sometimes the cause of their not blooming at all. Space the plants about three feet apart. For hedge plant 24 inches apart.

Fertilizing

A little bone meal or prepared fertilizer scattered around the plant, but not in contact with the stems, worked into the soil is beneficial for better blooms. Never let fertilizer of any kind come in contact with the roots.

Size of Roots

After many years growing Peonies, we have found by experience that a plant with 3 to 5 strong, well developed buds or eyes, and a properly balanced root system will produce the best results in the shortest time.

Time of Planting

Peonies planted in September and October, become established before Winter sets in, and will usually bloom in the Spring. We advocate Fall planting for the amateur grower; but they can be successfully planted in the Spring providing the
Mikado.

Plants are dug in the Fall and kept in a dormant condition over Winter.

Place the plants in your garden where they can remain permanently for eight or ten years. Cover lightly with straw or coarse hay after the ground freezes, the first Fall.

About Ants and Bees

When the buds begin to swell in the Spring, they are frequently covered with ants and bees; but do not become alarmed, as all these insects are after is the honey that exudes from the buds, and they will not cause any injury.

Peony Collection No. 4

Four of the highest rated Peonies in the world.

1 9.9 Le Cygne. Pure white.
1 9.8 Therese. Satiny pink.
1 9.7 Solange. Ivory color.
1 9.0 Longfellow. Cherry-red.

Actual Value, $13.50.

All Four, postpaid for $10.00

A Luetta Pfeiffer free if ordered promptly.

Anyone familiar with quality and varieties of Peonies will quickly recognize the 4 varieties listed above as the most unusual, the most desirable, and the most perfect of the entire Peony family.

Ratings are determined on size, coloring, fragrance, and growing qualities; and 10 points is considered perfect, according to Peony Society standards, but seldom attained, so these 4 can be considered the most perfect obtainable.

With a Luetta Pfeiffer Peony free, makes this collection a greater value than anything ever before offered.

Final—But Important

While many Peonies will bloom the first year, most varieties will not reach their full normal development, or produce typical bloom, until their third year. Therefore, do not be too hasty in your criticism. In cutting bloom, be sure to leave part of the foliage on the plant for the future development of the roots and buds.

7.5 ARCHIE BRAND (Brand, 1913). Deep seashell-pink. Very large, bomb-shaped flower of an even seashell-pink with silvery border; delicately scented like a rose. Profuse bloomer. Medium early. $1.00 each.

8.1 ASA GRAY (Crousse, 1886). Lilac-pink. Large, compact, pale lilac flower of semi-rose type. Prolific bloomer, fragrant and very striking appearance. Medium early. $1.00 each.

8.7 AUGUSTE DESSERT (Dessert, 1920). Intense pink, each petal edged with narrow silver border. Midseason. $1.00 each.

7.8 AUGUSTINE D’HOUR (Calot, 1867). Red. Extremely large, showy bloom of very deep brilliant or solferino-red, silvery reflex, bomb type. Medium early. 75¢ each.

8.0 AUBRE (Dessert, 1904). Milky white. Extra large, flat, loose bloom, semi-rose type. Fragrant and fine. Late. $1.00 each.

8.7 AVA LANCHE (Crousse, 1886). Pure snow-white. Fragrant, waxy, snow-white blooms opening like a rosebud. Center petals edged with carmine. Strong, tall, midseason variety. Very free bloomer. $1.00 each.

8.5 BAYADERE (Lemoine, 1910). Pure white. Large, globular flowers of creamy white with a golden heart. Midseason. $3.00 each.

8.1 BEN FRANKLIN (Brand, 1907). Crimson-red. Very tall, erect stems carrying individual crimson-red, rose-type blossoms in great profusion. Medium early; fine for massing for cut flowers and as a landscape variety. $1.00 each.

9.0 BARBONSS SCHROEDER (Kelway, 1889). Flesh-white, Plumeflowered flower with irregularly shaped petals. Fragrant; strong, tall grower and free bloomer. Midseason. Regarded as one of the world’s best white Peonies. $1.00 each.

CHARLES VERDIER. Deep rose. Sort of a mystery Peony, origin unknown, so it has never been listed for rating. Reminisces a large rosebud. One of the most prolific late varieties. A free and reliable bloomer. $1.00 each.

7.8 CHARLES M-KELLIP (Brand, 1907). Crimson. Probably the most perfectly formed bright red Peony, especially beautiful in the bud and when half open. Semi-rose type. Midseason. $1.00 each.

8.4 CHESTNUT BROWN (Brand, 1931). Deep purple. Delicate pink cone-shaped flower with creamy white petals surrounding the prominent ball of pink center petals. A late midseason variety, fragrant and fine for cutting. $1.00 each.

8.6 CHERRY HILL (Thurlow, 1915). Deep garnet-red. One of the earliest red Peonies. Beautiful sheen, long, stiff stems. Semi-rose type. $2.50 each.

8.7 CLAIRE DUBOIS (Crousse, 1886). Satiny pink. Very large, rose type flower, uniform soft pink color, borne erect on strong, stiff stems. One of the very best late varieties. $1.00 each.

8.1 COURONNE D’OR (Calot, 1873). White. Large, flat, semi-rose type, pure white flowers with a ring of yellow stamens around a tuft of center carmine tipped petals. Late. 75¢ each.

7.1 DELACHET (Delache, 1885). Red. Large, compact, rose type, violet-crimson blossoms slightly tipped with silver. One of the best old standard varieties. Late midseason. 50¢ each.

7.5 DELICATISSIMA (Unknown). Delicate pink. Rose type flower; fragrant, free bloomer, early and especially good for commercial cut flowers. 50¢ each.

7.8 DUC DE WELLINGTON (Calot, 1859). Creamy white. Large, bomb-shaped, white blossoms, sulphur center. Tall, erect growth. Midseason. 50¢ each.

9.3 Walter Faxon (Richardson 1904)

Vivid salmon-shell-pink of a luminous intensity, unique in Peonies. This remarkable variety is at its best in the show room. If cut in the bud, and kept in a dark, cool room for several days, and then brought into the light, it develops into a flower of wonderful coloring and exquisite beauty. The flowers are double, of medium size and attractive form; mildly fragrant, fairly floriferous; good stems and foliage. $3.00 each.
Luetta Pfeiffer 8.7
(Brand, 1916)

A beautiful semi-double, pinkish white, often eight to ten inches in diameter. These immense flowers are borne on long, stiff, upright stems in a manner that makes them a wonderful sight to behold. The blooms are made up of large, pure glistening petals interspersed with just enough golden stamens to make it fascinating and beautiful. Petals are edged and blotched with stripes of brilliant carmine. It is a very early, profuse and dependable bloomer. Has a delightfully sweet fragrance somewhat like a water lily. It opens from the bud a beautiful light pink, and if left in the sun several days gradually fades to the daintiest pink and then almost white. The foliage of the plant is a shiny dark green and even after the blooms are gone is a pleasing sight in the garden. It is one of the few that has had its rating increased twice. No collection of real good Peonies is complete without this wonderful variety.

IRISES, the Perennials of Beauty, Color and Contour

Irises are undoubtedly one of the most popular of all the hardy perennials. No other perennial plant available to our gardens combines so many good qualities. They are inexpensive, extremely hardy, may be grown under a great variety of conditions with a minimum amount of care, and they have a wonderful range of colors from the lightest pale yellow to rich gold and deep bronze, delicate pale blues, and lavenders to dark blue and violet to deepest purple, light pink to claret and deep maroon, all the shades of lavender, mauve, violet and pure white, with an endless array of combination colors.

Irises are of easy culture, and can be planted almost anytime the ground is not frozen, they will do best in a sunny, well drained location in a medium loose, mellow soil. Irises must be planted shallow, many people plant too deep and the plants rot. The rhizome or fleshy part of the root should be just under the surface of the ground. If your location is a low spot where water will stand, it is advisable to make raised beds, so the water cannot stand around the roots. Good drainage is necessary. If the soil is sour, an application of hydrated lime is advisable. Never use manure.

A Word About Plants and Prices

Our prices are based on strong, single divisions, and always send out the best plants available. It should be understood that while we strongly advise planting in July and August, the plants are not as large or well developed as they are in the Fall, but it is to your advantage to have the plants make their growth in your garden rather than our own. For southern states, better results might be obtained if Irises are planted in September or October.

Mass Planting Advisable

An Iris display in the garden is much more effective if they are planted in groups of from three to a dozen plants of each variety, and to stimulate an interest for mass planting, we are making attractively low prices by the dozen on many varieties.

Collections

Largely for the benefit of the beginner in Iris growing we are offering some exceptional collections and combinations listed on another page. For the Iris fancier who wants the best and knows just what he or she wants, we have a list of varieties that will appeal to you.

In the list following, the letter “S” means the “standards” or upright petals; the letter “F” means the “falls” or drooping petals.

Guarantee

All plants are guaranteed to be true to name, vigorous and healthy when received. If found to be otherwise, we will either replace with true stock or refund your money. Mistakes are made, but not intentionally.

Prices include prepayment of postage in the United States only.

Ratings of Iris

The figures at the left of varieties on these pages are the latest revised ratings as given by the American Iris Society in 1927. 100 points being perfect. Two ratings are given on Iris; the first two figures are Exhibition ratings, and the next two are Garden ratings.

List of Iris Varieties

Our list of Iris for 1930 will compare favorably with any collection in the United States. We have discarded practically every variety that does not rate 70 or better, and have added many of the highest rated, and best varieties in existence.

I received my order of plants yesterday and I wish to say they were very high grade and sturdy specimens. To say I was well pleased would be expressing it immoderately, and I wish to thank you very much for this order, of the manner of packing and the extra plants included.

L. W. L.

PARISIENSIS. Large, showy, deep purple, delicately penciled white. One of the earliest. 24 inches. 25c each; 3 for 60c; 12 for $1.50.

78-82 PEAU ROUGE (Cayeux, 1929). S. coppery red; F. bronze-blood-red; beard brownish yellow. Probably the readiest Iris yet introduced. 24 inches. $1.00 each.

91-99 PEGUERRE (Dykes, 1924). 38 inches. A magnificent mahogany-red flower of perfect form and very large size. A brilliant rich gold beard lights up the whole flower. It takes a plant of two years growth to give characteristic bloom because the stems are so tall and thick and the flowers so large and of great substance. $1.00 each.

69-79 PERFECTION (Barr, 1916). S. light lavender-blue flaked with deeper blue; F. brilliant deep violet-purple with an orange-yellow beard. 30 inches. 25c each; 3 for 60c; 12 for $1.50.

89-90 PIONEER (Bliss, 1924). A beautiful red-purple, nearly a self. S. large and incurved, color bright ampero-purple. F. very broad and strong, deep pansy purple set off by a bright orange beard. One of Bliss' best varieties. 36 inches. $1.50 each.

88-89 PRIMROSE (Sturtevant, 1923). S. amber-yellow; F. lighter barium-yellow. 30 inches. $2.50 each.

73-81 PRINCE LOHENGRIN (Mohn, 1929). This new seedling, a cross between Junikta and Lohingrin, is introduced as an improved Lohingrin. It grows nearly a foot taller, is slightly pinker in color and has a better arrangement of the flower. 35c each.

81-80 PRINCESS OSRA (Bliss, 1922). A very beautiful white variety dotted with lavender on both S. and F. The prettiest of the new plicates. $2.00 each.

All varieties listed at 25c each are $1.50 per dozen.

Dream
74-74 FRANCIS VICTORIA LOUISE (Goos & Keone-
mann, 1910). S. sulphur-yellow; F. rich plum bor-
dered cream. 30 inches. An early, free-flowering va-
riety in vigorous growth. 25c each; 3 for 60c; 12 for $1.30.

flushed yellow; F. brick-red. A tall variety boasting enormous flowers of fine shape. 48 inches. 50c each.

95-95 PURISSIMA (Mohr-Mitchell, 1922). A pure white Iris of fine form and substance. Its very tall and well branched stems make it one of the finest white Irises in commerce. Needs extra Winter protection in the North. $12.50 each.

72-75 QUAKER LADY (Farr, 1909). Smoky lavender 
with yellow shading; F. soft lavender and old gold. A 
very attractive medium sized variety. 36 inches. 25c 
each; 3 for 60c; 12 for $1.50.

86-88 QUEEN ALEXANDRA (Farr, 1910). S. purplish li-
ene; F. lilac reticulated bronze at the base. 22 
inches. 25c each; 3 for 60c; 12 for $1.50.

76-76 QUEEN EMMA. White. 25c each.

71-74 QUEEN OF MAY (Salter, 1859). S. and F. pur-
plish lilac or rose. Vigorous grower and free bloomer.
Good for forcing. 22 inches, 25c each; 3 for 60c; 12
for $1.50.

RAMONA (Mohr, 1924). A new plant of colors, petunia-violet, flushed cinnamon-brown, lightened up by an orange beard. fine form and substance and vigorous 
growth. $1.00 each.

for 60c; 12 for $1.50.

62-63 RHEIN NIXE (Goos & Keone mann, 1918). S. pure 
white; F. deep blue with white edge. 26 inches. The 
finest of the older varieties. 25c each; 3 for 60c; 12
for $1.50.

Free grower. 40 inches. 50c each; 3 for $1.00.

87-89 ROMODA (Eblis, 1924). One of the very best of the 
dominion seedlings, the blooms are very large, grace-
fully formed and delicately toned. S. pale lilac tinged 
pale pink from the F. velvety red-violet. A free flower, strong grower, with well branched spikes. About 42 inches. $0.60 each.

68-71 ROSE SALTERN (Bliss). A plicata, snow-white; 
S. deep blue with white edge. 26 inches. Much
larger than S'. Medium. 30 inches. 50c each.

ROSE UNIQUE (Farr, 1910). S. and F. bright rose. 
The nearest approach to a pink Iris. Very early. 25c 
each; 3 for 60c; 12 for $1.25.

74-78 ROSEWAY (Bliss, 1919). S. purple; F. dull rose 
beard. One of the brightest red Pallidas. 36 inches. 
35c each; 4 for $1.00.

R. W. WALDACE (Ferry, 1923). 42 inches. A 
beautiful rich deep purple Iris. Taller and darker 
colored than Germaine Firths. Strong and vigorous.
A magnificent Pallida. $2.50 each.

\[PHLOX FREE\]

You can have Four Fine Phlox Free instead of Peonies, Irises or Tulips. Just send us an order for $5.00 worth or more of anything in this catalog at regular prices, except Bargains or Special Collections, and with your order send the names and addresses of 3 neighbors or friends on back of order blank, who have gardens and we will ship to you with your order Four Fine Phlox Free.

Duluth, Minn.
Chicago, Ill.

The two orders I placed with you were promptly received and I wish to say that I was more than pleased with the stock. For size and generous count you have them all beat, especially so when one considers that a portion of the order was special collections, and very attractively priced.

Just writing to show my appreciation for your promptness and care.

Hardy Phlox

The Phlox is one of the foremost indispensable plants for the border. Not only in a group by itself is the Phlox effective, but intermingled with the other hardy perennials in the garden or border it lends beauty and color to the surrounding plants. There are so many places where a planting of brilliant colored Phlox would increase the beauty of the grounds that it is useless to mention them all. An experienced gardener will tell you that because of the dependability and long blooming period of the Phlox that it is the very backbone of the perennial garden. It starts blooming in July and blooms profusely until late in September when the hard killing frosts stop it. The demand for Phlox increases every year, which proves that its popularity is spreading rapidly. Here at our nursery where the rows run right up to the highway, their brilliance seems to be an irresistible force that compels tourists to stop, admire them and place orders for them before they leave.

Easy to Cultivate

Phlox is less exacting than many of the perennials but does best in a rich, loamy soil in open sunlight. For best results plant about two feet apart and divide the clumps and transplant every two or three years. Colors vary from lily-white through all the pinks, reds, to dark purple.

We are especially proud of our Phlox offering this year due to the high quality of the roots and the wide selection of colors and varieties. Prices are extremely low considering the time it has taken to develop these plants. We suggest that you make selections early.

Not less than 3 of any variety will be sold at dozen rates.

Hardy Perennial Flowers

Achillea - Milfoil

Achilleas are of easy culture and grow in any good garden soil, preferring sunny locations. They are useful for the border and for cutting. BOULE DE NEIGE (Ball of Snow). Small, white flowers, wonderful for cutting to fill in with other flowers. Blooms in June. 25c each; $2.00 per doz.

THE PEARL. Pure white flowers borne in the greatest profusion on strong, erect stems 2 feet high. 25c each; $2.00 per doz.

Aconitum - Monkshood

Aconites are invaluable for planting in shady and semi-shady positions; also fine for cutting. SPARKS' VARIETY. July and August flowering; tall branched spikes covered with deep blue, monkshood flowers. Bulbs, 25c each; $2.50 per doz.

Astilbe - Spirea

JAPONICA. This is one of the few attractive perennials that thrive either in moderate shade or in the open. Perfectly hardy. Large, plumy heads of creamy white or pink flowers in June or July. 3 to 4 feet. Either variety, 35c each; $3.50 per doz.

Boltonia

ASTEROIDES. Grows to 6 or 7 feet in height and produces an amazing number of small, daisy-like, white flowers in late Fall. Fine for cutting in combination with Delphinium. 25c each; $2.00 per doz.

Coreopsis

LANCECOLATA GRANDIFLORA. A beautiful hardy border plant, grows 18 to 24 inches high and produces its bright yellow flowers in great profusion. By cutting off old flowers, will bloom until Fall. 25c each; $2.00 per doz.

Dictamus - Gas Plant

The Dictamus is one of the most satisfactory hardy plants in cultivation, both on account of splendid flowers and its rich, durable foliage. 5c each.

Dicentra - Bleeding Heart

SPECTABILIS. An old-fashioned favorite. Its long racemes of graceful, heart-shaped, pink flowers are always attractive. Flowers in May. 18 to 30 inches. Heavy roots, 75c each.

Daisy

In the garden they are chased among the most known hardy plants. All varieties are fine for cut flowers. ALASKA (Shasta Daisy). Large, pure white flowers, yellow center. 25c each; $2.50 per doz.

MEMORIAL DAISY (Leucanthemum). A very hardy and early flowering Daisy. Flowers not so large as Alaska or Shasta, but its extreme earliness (usually before Memorial Day), makes it a desirable variety. 25c each; $2.00 per doz.

PAINTED DAISY (Pyrethrum roseum hybridum). Very hardy and one of the choicest of the perennials. The fern-like foliage is attractive when the plants are not in bloom, and the flowers range from white, through shades of pink to deep cerise. Blooms for cut flowers in May and June. 25c each; $2.50 per doz.

Delphinium - Perennial Larkspur

Indispensable to the herbaceous garden. Their long, showy spikes of flowers bloom from June until frost in the Fall; and furnish the most satisfactory blues to any color scheme.

BELLADONNA. The most continuous blooming of the Delphiniums. Color is a clear turquoise-blue. Very beautiful and fine for cutting. 2-yr. clumps, 25c each; $2.50 per doz.

BELLAMOSUM. The dark blue form of the popular Belladonna. 2-yr. clumps, 25c each; $2.50 per doz.

CHINESE BLUE. A very pretty variety with fine, feathery foliage and intense gentian-blue flowers in open panicles. 1-yr. clumps, 25c each; $2.00 per doz.

CHINESE WHITE. A pure white form of the above. 1yr. clumps, 25c each; $2.00 per doz.

GOLD MEDAL HYBRIDS. These are in all shades of blue and purple. Mixed colors only. 25c each; $2.50 per doz.

WREXHAM HYBRIDS. An extra fine strain of large flowering Delphiniums. Mixed colors only. 2-yr. clumps, 50c each; $5.00 per doz.

Gypsophila - Baby's Breath

Invaluable for cutting to fill in with bouquets. Also fine for filling in bare places in the border. The plant forms a dense, spreading bush, covered with tiny, white flowers. Roots, 25c each; $2.50 per doz.

Hemerocallis - Yellow Day Lily

Well known family resembling lilies in character and bloom, usually sweet scented, and bearing a great quantity of yellow flowers during long periods of Summer. Very showy in the garden. 2 to 4 feet in height.

DR. REGEL. Handsome, rich orange-yellow. Flowers in May. Very fragrant; fine for cutting. 1½ feet. 35c each; $3.00 per doz.

FLAVA (Lemon Lily). Sweet scented; clear full yellow. Flowers in June. 2½ feet. 25c each; $2.50 per doz.

THUNBERGI. Somewhat like Flava, but flowers in July, a month later. 3 to 4 feet. 30c each; $2.50 per doz.

Heuchera - Coralbells

ALBA. Delicate creamy white flowers on a 12 to 18 inch stem. Flowers in June. 25c each; $2.50 per doz.

ROSEA. Light rose colored flowers on stems 16 to 24 inches. Very delicate and attractive. 50c each.

Lily-of-the-Valley

A liberal top dressing of well-decayed manure will be well repaid in the size of bloom and length of stem of these sweetly scented flowers. Clumps, 35c each; $3.50 per doz.
Lycnis - Campion

A fine old-fashioned flower bearing large heads of bright red flowers that are very striking. These combined with Achillea and blue Delphinium make an ideal patriotic bouquet on July 4th. Blooms early July. 2 to 4 feet. 25c each; $2.50 per doz.

Monarda or Bergamot - Oswego Tea

Showy plants growing from 2 to 3 feet high, with aromatic foliage and producing their bright flowers in July and August.

**DIODYMA. CAMBRIDGE SCARLET.** Brilliant crimson-scarlet. 25c each; $2.50 per doz.

**DIODYMA ROSEA.** Similar to above, but with rose colored flowers. 3 feet. 25c each; $2.50 per doz.

Oriental Poppies

These Poppies are the regal representations of the popular Papaver family.

**ORIENTALE.** Brilliant, showy scarlet; flowers in May and June. Very showy. Must be transplanted when dormant in August and September. 25c each; $2.50 per doz.

**Ranunculus - Yellow Buttercup**

Well known, double, yellow Buttercup. Effective either as a cut flower or grouped in hardy border, blooming in great abundance in May and June. 24 inches. 25c each; $2.00 per doz.

Spirea - Dropwort

**FILIPENDULA.** Numerous corymbs of white flowers, 15 to 24 inches high, in June and July. Pretty fern-like foliage. 25c each; $2.50 per doz.

Mrs. Leon Douglas

This variety we believe has the largest flowers in existence. The spikes are immense, the flowers well placed and wide open. The color is begonia-rose striped with flame and brilliant scarlet. 15c each; $1.50 per doz.
Hardy Lilies

Lilium Candidum
(Madonna Lily)
Lilium Candidum is the grand old-fashioned garden Lily; and one of the most beautiful clear waxy white flowers, with pleasing fragrance.

Bulbs of this Lily should be planted in August or September. We cannot supply them at any other season. Plant in loamy or sandy soil, or surround the bulb with sand and an open sunny location is best. This Lily must be planted rather shallow, not over three inches of soil covering the bulbs.

Mammoth Size Bulbs. 50c each; $5.00 per doz., postpaid.

Lilium Tigrinum
(Tiger Lily)
The old-fashioned Tiger Lily of mother's garden. Orange, spotted purple. Extremely hardy. Plant either Fall or Spring.

Large Bulbs. 25c each; $2.50 per doz., postpaid.

Lilium Regale or Myriophyllum
(The Regal Lily)
One of the most beautiful and hardiest of Lilies in cultivation. The flowers are white, shading to yellow in the throat, with a pink tinge on the outer edge of petals. A strong grower on slender wiry stems two to four feet high, covered with long, lanceolate foliage. The flowers are of large size when fully expanded, six to eight inches across the trumpet-shape bloom. It is deliciously scented reminding one of the Jasmine, but lacking the heavy oppressive odor of most lilies. Blooms outdoors in the northern states in July. The Regal is an extra fine garden Lily and is also an excellent forcer in the greenhouse. Plant in the Fall or early Spring in well drained soil, five to six inches deep.

Large Blooming Size Bulbs. 35c each; 3 for $1.00, postpaid.

Lilium Umbellatum.
(Lilium Umbellatum
(Candlestick Lily)
Orange-red flowers in upright umbels; somewhat similar to Lilium Elegans, but grows taller; two to three feet or more. Blooms in June. Perfectly hardy and can be planted either in the Fall or early Spring.

Large Bulbs. 25c each; $2.50, postpaid.

The shipment of bulbs arrived promptly and in excellent shape. I am not only very much satisfied with the way you filled the order, but greatly pleased with the overcount and generous filling of the same.

Choice Imported
TULIP BULBS

We import large quantities of Tulips every year direct from Holland, and supply only bulbs of the highest quality. These bulbs can only be supplied in the Fall, and should be planted before the ground freezes.

**Planting.** Tulips may be planted any time in October or November before the ground freezes up. Plant in beds or borders four to five inches deep and about six inches apart. A light covering of straw or marsh hay is advisable in northern states, but do not put this on **UNTIL AFTER THE GROUND IS FROZEN SOLID.**

**Regarding Postage.** We will prepay postage on all Tulip orders in the first four zones. For each zone beyond the 4th add 15c per 100 bulbs. Orders for 300 or more will be forwarded by express.

*Prices on Tulips are net. No discount allowed.*

**Darwin Tulips**

Darwin Tulips are beautifully outlined, cup-shaped and carried on tall, stiff stems. The colors vary from almost jet black, crimson, scarlet and purple to lilac, mauve, pink and indescribable intermediate blending and pastel shades. Yellow is the one color missing, but this can be supplied from the Cottage varieties listed under Cottage or May-Flowering Tulips.

This is written to acknowledge receipt of the shipment of Peony roots recently received from you and to express appreciation for the very generous treatment accorded in this transaction. The extra roots included were a most agreeable surprise and the selections you made in filling this assortment certainly convinces one that you intend to give more than a square deal.

Sacramento, Calif. C. H.

My order of bulbs came through in nice shape and I appreciate the nice size of bulbs you sent. Please accept my thanks for many extra bulbs. I am looking forward to some nice blooms this year.

Breeder Tulips

Breeder Tulips are closer to the parent type of this ancient flower than others, from which the Darwin race is supposed to have developed, and the richly hued colors are coming into favor. They blossom in May, though not so tall, perhaps, as the Darwins, but have larger blossoms. The colors include many rare among flowers—browns, bronzes, purples, blue-blacks, deep mauves, dull gold and dark lilac, all exquisitely blended.

12 Tulips FREE

If you send us an order for $5.00 worth or more for any regular stock at regular prices, excepting all Bargains and Special Collections, and send us with your order, three names and addresses of neighbors or friends who have gardens, we will send you free with your order, 12 fine assorted Tulips. Or if you prefer, you can have 2 Peonies, as on page 13, or 6 Iris, as on page 15, or 4 Phlox, as on page 23. Be sure to specify your preference.
Dear Flower Lover:

Presuming that you are a flower lover and probably interested in extending your garden, improving it, or replacing some of the older varieties with some of the newer, more beautiful, more desirable PEONIES, IRIS, PHLOX, TULIPS, ETC., we are sending you herewith,—

Our new 1930 Catalog of Perennials for Fall Planting, showing many varieties in actual colors, filled with special bargains and collections that will enable you to replenish your garden to your heart's content, at very little cost, with quality stock, with varieties that heretofore were probably beyond reach of your pocketbook due to scarcity of supply and high prices that were necessary.

If you are not already familiar with Pfeiffer Quality,—send us an order and let us prove conclusively that Pfeiffer stock is just a little better than the best you ever secured elsewhere and a lot better than that ordinary stuff you usually get from Nurseries who do not grow their own.

WE GROW OUR OWN. In fact, we specialize on Peonies, Iris, Phlox, Gladiolus, etc., grow them by the thousands. They are a hobby with us. That's why we give them unusual care, best possible attention in growing and handling. Then they are dug and packed properly for shipment, not just good enough to get by, but the best we know how. The result is they reach you in finest possible condition bound to thrive when planted in your own ground and make the greatest possible growth—right from the start.

The success you have with things that grow depends upon the treatment and care they have received before you get them. We give ours the best—that's why.

Pfeiffer roots and bulbs seldom fail, at least not through any fault of ours. Regardless of where you have bought in the past and how fine the stock might have been, our present supply is better than any you ever obtained anywhere—at any price. In fact, it's the best we have ever produced which means greatest values ever offered.

We will appreciate any order you send us, large or small, and by means of this order we hope to make you a friend, a real Pfeiffer Booster, and your source of supply for any and all of your future needs.

Send your order soon, let us make the selection of your stock now and have it among the first orders to be shipped, a matter that will be of considerable advantage to you.

Yours very truly,

THE PFEIFFER NURSERY.

C. A. Pfeiffer.

INTERESTED IN FLOWERS
This Announcement is made to call your attention to Pfeiffer’s Limited Bargain Offers shown in Special Spring Broadside

EFFECTIVE JANUARY 1st, 1931 FOR A LIMITED TIME ONLY

PEONIES—See Catalog pages 2 and 7 to 14, also inside spread of Special Spring Broadside.
All Collections can be filled this spring, but varieties listed singly can only be filled if they are included in one of the Collections.
See our Special Spring Bargain list in broadside showing 56 varieties that we can fill this spring. Peonies can be planted early in spring or in the fall any time after September 1st.

IRISES—See catalog pages 15 to 23, also 32, and Special Spring Broadside.
Wonderful bargain list of 65 varieties offered at half price in Broadside. Iris can be planted either in spring or fall.

HARDY PERENNIAL FLOWERS—Catalog pages 25 and 26.
Varieties such as Oriental Poppy, Bleeding Hearts, Aconitum, Gypsophila should be planted in the fall, and we recommend fall planting on all the others.

GLADIOLUS BULBS—Catalog pages 26 and 27 and inside spread of Broadside.
Prices on many varieties are greatly reduced in broadside. Reductions as great as 50 to 60 percent. Also about 40 entirely new varieties. See Special Spring Broadside for these many rare bargains.

HARDY PHLOX—Catalog page 24.
Catalog prices unchanged, and orders can be filled either early in spring or in the fall. Late fall being considered the better time to plant.

PERENNIAL COLLECTIONS—See pages 5 of catalog.
Prices unchanged. (NOTE—Orders for Perennial Collections can not be filled until after August 1.)

HARDY LILIES—Catalog page 28.
Plant Lilies in the fall.
We have thousands of Lilies growing in the field and will be in a better position than ever to take care of your Lily requirements next fall, any time after September first being all right.

TULIP BULBS—Catalog pages 29, 30—31.
Tulips must be planted in the fall. October and November being the best time.
We import Tulips by the car load direct from the best growers in Holland every year.
Our imports this year of over a quarter of a million bulbs will include the cream of the wonderful new Breeders, the select Darwins, Single and Double Early, Cottage, Parrot, Rembrandt and the new Lily flowering varieties.
Repeat orders from old customers and their friends more than doubled our sales of Tulips last year. We will be better prepared than ever to take care of all orders this year, but advise ordering reasonably early to insure getting the complete assortment you may select. Orders for Tulips can be accepted any time and will be filled starting September 20, 1931.

OUR SPECIAL SPRING BROADSIDE
A copy of this broadside has been sent to you. If you have not received it be sure and ask for another right away. It shows how to save money on fine, healthy, beautiful Glads, Iris and Peonies.
